

## **EV Test Procedure          2/27/23 @ 9:30am**

**Chair: Brian Wilson**

Reviewed agenda

Open Discussion

What needs to be considered

1. Discussed existing SAE EV Procedures
2. Common nomenclature between Type II, III and IV
3. How regen will affect results
4. How to control accessory load variation
5. Effects of variable battery condition throughout test
6. Goal is to apply procedures from Type II, III and IV that are same for EV vehicles

Please sign the green sheet

Plan is to create working team to address small parts

Discuss Fall 2023 meeting
